LIFT YOUR CORNS OFF WITH FINGERS

Tells how to loosen a tender corn or callus so it lifts out without pain.

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn or callus the soreness is relieved and soon the entire corn or callus, root and all, lifts off with the fingers.

Freezone dries the moment it is applied, and simply shrivels the corn or callus without inflaming or even irritating the surrounding tissue or skin. A small bottle of freezone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callus. If your druggist hasn't any freezone he can get it at any wholesale drug house for you.

The Dedication Of Asbury

Sunday from far as well as near people from all sections of the county coursed their way to the old worshipping ground south of this city until by noon there had assembled no less than two thousand to see the edifice and hear the dedication sermon by the most distinguished divine in the state.

The new church house is not only commodious, but it is a beautiful structure and is furnished adequately for all purposes of worship. The old building in which conversions were many and lasting has been sold and will soon take its place among the casts offs, but around it will cling memories of many no matter to what service it may be put so long as it stands.

At eleven o'clock Presiding Elder Ransford was brot forward after usual opening proceedings by the pastor, Rev. Marlin, and the history of Asbury was told in concise language. Following a select choir rendered splendid music and a solo by Mrs. Joe Ingram accompanied by violin and piano was excellent.

Bishop Hendrix then discoursed on the subject of cereals and averred that grain was a civilizer. The goddess Ceres poured forth from natures mighty cornucopia more than an abundance, and the handful of grain given to man by the Father had multiplied until were the earth hollowed out for a bin, it would be so inadequate to the quantity on earth, millions such receptacles would need be added to contain it all. The subject was selected to impress upon his hearers the effect of agriculture on the human race and the increase of wealth with common industry, and the fact that sowing and harvesting grain was a civilizer of man, for no savage ever gave attention to such employment. Bishop Hendrix is worth going miles to hear, no matter what subject he may deal with.

The balance of the cost of the building, \$1800 was doubtless raised easily, nearly everyone contributing from \$100 down to dollars.

The neighborhood women members and non-members of the church had prepared such a feast as we will not attempt to describe. Such a quantity of fried spring chicken by the big dishpan full, old country ham by the cart load and roast mutton apparently enough for an army, these were the chief viands for all, but the quantity of pastry, cakes, jellies and preserves, of course several kinds of salads, vegetables of all kinds, oh well, what else we forget, and tho when the immense throng was beheld by those in charge of the dinner

grave fear was felt that enough had not been prepared and brot, after each and every one present had been served with a large paper plate overloaded with everything except the pastry, there was enough for nearly as many more, and then the platters were filled with pie and cake. Not one but who overtaxed his or her capacity and felt more or less uncomfortable for a time.

There were 142 automobiles counted around the church and down the road and 179 buggies and carriages. Yes, there were two thousand or more who witnessed the dedication of the beautiful new structure within which may there never be heard a word inconsistent with true christianity which is composed principally of charity for all mankind, nor may there ever be a spurious conversion to the true religion of the Lord Jesus Christ.

Mrs. Chris Johnson who has been visiting relatives in Kansas City the past week returned here Saturday and after visiting her sister Mrs. H. T. Garnett she went to her home in Thomas Hill.

Asking For A Raise

Have you ever asked for a raise in salary? If you have not, there is something coming to you in the way of a brand new feeling. I mean the sensation you experience while approaching the boss on this quest. It is not just like sea-sickness; it is not exactly the same as dropping ten stories in an elevator; yet there are points of similarity to it in each of these. Walking into the dentist's office with a tooth aching to be pulled approximates it as nearly as anything else, although in this case the pain is reversed; the boss is the one who has the pain, and you are the one to do the pulling.

As much depends on your approach to the boss as does on your approach to the green, to use an expression of golf. You must not shoot too far; neither should you fizzle and have to make an extra attempt. But go right in as if you belonged there. Never mind speaking about the weather as a self-starting device; say what is on your mind. He can find out about the atmospheric conditions by looking out of the window. —Atlantic Monthly.
